

Documents to bring to your X-Ray Appointment

Please arrive 15 to 30 minutes before your appointment to allow time for completing your paperwork. Please bring the following documents to your appointment:

1. Requisition/order form — the order form completed by your physician or medical provider.
2. Insurance cards — make sure your cards are current for the date of service.
3. Contact information — bring contact information for the person responsible for paying the cost of services you will receive.
4. Payment — typically required on the date services are provided if the cost of your visit will not be covered by an insurance plan. If you have an insurance plan, bring your copay and a payment toward your deductible or coinsurance; your insurance plan determines the amount of these fees. The final payment owed will be determined after your insurance company processes your claim. We accept personal checks, cash, and money orders, as well as VISA, MasterCard, American Express and Discover credit cards. Financial assistance, based on need, is available.
